## It's My Life - Parody - We are Wales

This ain't a song for the pizza eaters  
No remorse for the Gyro dreamers  
Our population's small, but we stand real proud  
You're gonna hear our voice when we shout it out loud

We are Wales  
The dragon nation  
Fueled by Viking aspiration  
Set on color war domin-ation

We are Wales  
Our country is the pride of Europe  
Our main export is fresh syrup  
Set on color war domin-ation

We are Wales  
We have a celtic past of hunting boars

No country here is more prepared for war  
Towering in our castles, up really high  
Three million citizens, just ready to saay

We are Wales  
The dragon nation  
Fueled by Viking aspiration  
Set on color war domin-ation  
We are Wales

Our country is the pride of Europe  
Our main export is fresh syrup  
Set on color war domin-ation  
'Cause We are Wales

We're gonna stand tall, now that we're at war  
We're tiny, but mighty and won't back down

We are Wales  
The dragon nation  
Fueled by Viking aspiration  
Set on color war domin-ation

We are Wales  
Our country is the pride of Europe  
Our main export is fresh syrup  
Set on color war domin-ation

We are Wales  
The dragon nation  
Fueled by Viking aspiration  
Set on color war domin-ation  
We are Wales

Our country is the pride of Europe

Our main export is fresh syrup

Set on color war domin-ation
